CSI was founded as a Virginia Small Business in 2004. We are a national security-focused, small business platform for highly skilled IT consultants and strategic advisers who want to serve the mission and deliver impactful solutions. We specialize in transforming legacy technical environments into modern, agile, and secure IT enterprises by applying our expertise in Strategic Oversight, Solution Development, Cloud Migration, Data Management, and Cybersecurity.

***We are looking for great people to be a part of our team. Are you one of them?***

*"My job is to develop software. I came to CSI because of the mission-first mentality, compensation, and incredible benefits, specifically the 100% medical and dental insurance premiums and low deductibles."*

*"My job is to oversee Corporate Operations. I came to CSI because of the family and community friendly philosophy and the flexibility a small company has to work with different corporate partners to reach a targeted client base."*

*"My job is to find new consultant candidates. I came to CSI because of the wonderful hard working people, each of which possesses a genuine concern for the mission and delivering quality results."*

*"My job is to orchestrate client solution releases. I came to CSI because of the friendly, caring, and extraordinary management team that understands the value of program leadership and teamwork in diverse, multi-company, contract delivery programs."*

*"My job is to oversee contracts and finances. I came to CSI because our virtual work environment provides the flexibility I need to take care of my job and my family. No office also means lower overhead which financially benefits both our consultants and clients."*

*"My job is to architect enterprise cloud solutions. I am onsite with the client directly impacting mission. I love working at CSI because they give me the flexibility and resources to provide the best possible support to our clients."*

***Mission Insight • Technical Expertise • Enduring Partnerships***
